Subject: RE: 2017 Tribal Priority Points SDS Scoring

Morning Lionel,

Sounds like IHS PHX Area is recommending to switch the Tribal priority points so that the HAMP scores a 16 (#1 priority). There seems to be a real possibility of coming up with IHS funds this year's submission (next year). The potential downside to that is if the issues of ownership, operation, maintenance, and user fees are not addressed, it will not get funded. This is what is currently in the SDS:

AZ09999-0905	Hopi Open Dump Closures	4	59	\$509,000.00	\$509,000.00
AZ09981-0601	Hopi Arsenic Mitigation Project	8	59	\$14,735,000.00	\$14,735,000.00
AZ09999-0902	Hopi Solid Waste Landfill	12	61	\$2,586,000.00	\$2,586,000.00
AZ09961-0601	Bacavi Water System Improvements	16	63	\$314,000.00	\$314,000.00

The total IHS funds being requested on the Bacavi Water System Improvements is \$39,000. AML showed up with the rest and then some (\$385k total?) Therefore, I'd recommend swapping the 8 and 16 points resulting in the following:

AZ09999-0905	Hopi Open Dump Closures	4	59	\$509,000.00	\$509,000.00
AZ09981-0601	Hopi Arsenic Mitigation Project	16	67	\$14,735,000.00	\$14,735,000.00
AZ09999-0902	Hopi Solid Waste Landfill	12	61	\$2,586,000.00	\$2,586,000.00
AZ09961-0601	Bacavi Water System Improvements	8	55	\$314,000.00	\$314,000.00

Also, the price tag on the HAMP will be updated at some point to include the Tribal contribution towards the NTUA power line extension. That brings the total down to ~\$13.6M.

Please let me know what you think by close of business tomorrow.

Thanks,

Jesse

Subject: RE: 2017 Tribal Priority Points SDS Scoring

Afternoon Lydell and Lionel,

Based on the last few days of meetings, the PHX Area IHS SFC Director, Eric Matson, has expressed a possibility of providing IHS funds for the HAMP in FY2018. If so, this is going to be a special case that falls outside of our normal SDS deadlines. Eric is going to follow up with HQ to clarify some issues in the next couple weeks. Also, the initial Area review of SDS projects is expected sometime next week.

It may be advisable to change Tribal Priority Points (potentially short-notice) prior to August 31, depending on what we find out next week.

The attached email is relevant.

Thanks,

Jesse

James,

Good Afternoon, I will be uploading this letter delivered by Lionel to the appropriate SDS projects in STARs.

Subject: 2017 Tribal Priority Points SDS Scoring

Afternoon Lionel,

Please find the attached 2017 Hopi SDS listing for funding in FY2017 with what we recommend as priority points already assigned.

We recommend the following allocation of points:

- #1 Priority (16 points) AZ09961-0301 Bacavi Water System Improvements Project
- #2 Priority (12 points) AZ09999-0902 Hopi Solid Waste Landfill Project
- #3 Priority (8 points) AZ09981-0601 Hopi Arsenic Mitigation Project
- #4 Priority (4 points) AZ09999-0905 Hopi Open Dump Closures

The #1 priority has a \$275,000 verbal funding commitment from the Bacavi Village per CSA Stewart Nicholas at this time pending approval of AML Application. This scope includes Tank Recoating, Gate Valve Replacement, 6" Water Main Extension. We are currently putting plans together to submit for AML Funding. This is probably the only project in SDS that would be considered for IHS Funding. IHS would only be able to fund a small portion (\$38,000 if funded) of the \$313,000 total. This project is low (currently sitting at #22) on the Area Priority listing, but maybe since the requested funds are a small amount relative to other IHS Projects and with a fully developed Construction Drawings this project would get considered for funding. It may still be a long shot though, but the 16 points will push it closer to the funding range.

The #2 priority is mainly to go after planning funds for Hopi Solid Waste to further develop the current project in SDS and other projects in SDS including Hopi Solid Waste Equipment. See attached SDS Narratives for more information. The current cost estimate and scope of work would need adjusted with input from the Tribe.

The #3 and #4 priorities are largely just to show Tribal support for these projects. They are not likely to be funded.

Please provide a reply to this email if you concur with the above allocation of points or if you would like to discuss further and/or reallocate. Let me know if you require additional information (like more SDS Project Narratives).

Thanks,

Lydell Yazzie, E.I.T.
